JANUARY 2019

CAPITAL PROJECTS UPDATE

PROJECT: Waterside Engineering Design and Permitting Services for Cruise Terminals 8 & 10

DESCRIPTION: Select a design firm with knowledge on deep water cruise terminals to design the improvements on CT-8 & CT10.

PROJECT STATUS:

On November 15, 2018 Canaveral Porth Authority published the first advertisement for the Request for Qualifications (RFQ) Waterside Engineering Design and Permitting Services for Cruise Terminals 8 and 10 Waterside Modifications. Qualifications were due on December 20, 2018 and a selection committee meeting was held on January 8, 2019. After reviewing the two (2) proposals submitted, the committee ranked Jacobs as the #1 firm.
