

Multi-Day Design Workshop

What is a Design Workshop?

A Design Workshop is NOT:

- A one-day brainstorming event
- A marathon involving everyone all the time
- A really long meeting

A Design Workshop IS:

- Co-design
- A process that is open to all interested parties (stakeholders)
- 3 feedback loops
- Collaborative and multi-disciplinary
- Results in a detailed feasible plan

Design Workshop 'Readiness' – what does it take?

Design Workshop Roles: The Team

A multi-disciplinary team of specialists who use their combined expertise, along with the local expertise of stakeholders, to develop a feasible plan.

Design Workshop Roles: The Stakeholders

Stakeholders provide local expertise, vision, input and review at key moments during scheduled and impromptu meetings.

They are not there all the time.
