

STAFF REPORT

SAUSALITO CITY COUNCIL

MEETING DATE: November 19, 2019

AGENDA TITLE: Receive and File Report from Drawdown: Marin

LEAD DEPARTMENT: Administration

RECOMMENDED MOTION: Receive and File

SUMMARY / BACKGROUND

Drawdown: Marin is a community driven planning and implementation process to identify local solution to climate change that dramatically reduce greenhouse gas (GHG) emissions beyond zero.

The Vision is for Marin to reverse its impacts on climate change by implementing local solutions and create a thriving, equitable, and resilient future for all.

The information provided to Council will include the current and projected countywide greenhouse gas (GHG) emissions, existing initiatives and programs that reduce those emissions and address climate change and some ideas on how Sausalito can get involved to review solutions and help implementation in addition to help get the word out and collaborate with Drawdown.

The information provided is very valuable tool for the General Plan as the committee moves forward on creating and applying a more sustainable path for our City.

Presented to the City Council by Alex Porteshawver, Senior Sustainability Coordinator County of Marin
