EXECUTIVE SUMMARY:

Each year the County is required to submit to the California Department of Transportation a report of the mileage of county maintained roads. Between January 1, 2019, and December 31, 2019, there were no additions or exclusions to the maintained mileage in the County. Therefore, the mileage of maintained roads remains at 861.454 miles.

RECOMMENDATION(S):

1. Adopt resolution "A Resolution of the Glenn County Board of Supervisors Approving the 2019 Maintained Mileage Report"; and
2. Direct the Public Works Director, or designee, to submit the approved report and resolution to the California Department of Transportation.

HISTORY AND BACKGROUND:

Section 2121 of the California Streets and Highway Code requires counties to submit to the California Department of Transportation any additions or exclusions to the mileage of maintained county roads. Examples of actions which would necessitate revising the maintained mileage list include the construction of new roads, approval of freeway maintenance agreements, abandonments, annexations, or corrections to errors in existing tabulations. In 2019 the maintained mileage for Glenn County is reported at 861.454 miles, which is unchanged from 2018.

Highway Users Tax Apportionment (HUTA) and Road Repair and Accountability Act, (commonly known as SB1) funds are apportioned via a formula which incorporates several factors, including: maintained mileage, number of vehicles registered in a jurisdiction, and population. This annual report is necessary for calculating Glenn County’s apportionment of these very important funds.

FISCAL/PERSONNEL IMPACTS(S):

HUTA revenue for fiscal year 2021 is estimated at $2,840,014, and SB1 funds are estimated at $2,612,612. These estimates were produced prior to the onset of the current public health situation and are anticipated to be greatly reduced as the full impact of our collective behavior changes is realized.
ANALYSIS/DISCUSSION:

There are no changes from the previously approved 2018 report.
