Consultant shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants shall have sufficient skill and experience to perform the Services assigned to them. Finally, Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Consultant shall perform, at its own cost and expense and without reimbursement from the Town, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its sub-consultants who is determined by the Town to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the Town, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

If Consultant performs any work knowing it to be contrary to such laws, rules and regulations, Consultant shall be solely responsible for all costs arising therefrom. Consultant shall defend, indemnify and hold Town, its officials, directors, officers, employees, agents, and volunteers free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.2.10 Insurance.

3.2.10.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the Town that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the Town that the subconsultant has secured all insurance required under this section.

3.2.10.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office “occurrence” form CG 0001, or the exact equivalent, and shall be no less than \$1,000,000 per occurrence and no less than \$2,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions limiting coverage for (1) contractual liability; (2) cross liability exclusion for claims or suits by one insured against another; or (3) contain any other exclusion contrary to the Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 0001 covering “Any Auto” (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities shall be in an amount of not less than \$1,000,000 combined limit for each occurrence.

(C) Workers’ Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than \$1,000,000 per accident for bodily injury and disease.

(D) Professional Liability: Professional Liability insurance with minimum limits of \$1,000,000 per claim and in the aggregate. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least three (3) years from termination or expiration of this Agreement.

3.2.10.3 Endorsements. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the Town for approval.

(A) The policy or policies of insurance required by Section 3.2.10.2(A), Commercial General Liability, shall be endorsed to provide the following:

- (1) Additional Insured: Consultant agrees to endorse the third party general liability coverage required herein to include as additional insureds Town, its officials, employees, agents, and volunteers, using standard ISO endorsement No. CG 2010 with an edition date of 2010 or similar form. This provision shall also apply to any excess/umbrella liability policies. Consultant also agrees to require all contractors, subcontractors, and anyone else involved in any way with the Project contemplated by this Agreement to do likewise.

(B) The policy or policies of insurance required by Section 3.2.10.2(C), Workers' Compensation, shall be endorsed to provide the following:

- (1) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the indemnified parties.

3.2.10.4 Primary and Non-Contributing Insurance. All insurance coverages shall be primary and any other insurance, deductible, or self-insurance maintained by the indemnified parties shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.2.10.5 Waiver of Subrogation. Required insurance coverages shall not prohibit Consultant from waiving the right of subrogation prior to a loss. Consultant shall waive all subrogation rights against the indemnified parties. Policies shall contain or be endorsed to contain such provisions.

3.2.10.6 Deductible. Any deductible or self-insured retention must be approved in writing by the Town and shall protect the indemnified parties in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.2.10.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates and endorsements on forms approved by the Town. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15) days prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the Town. If such coverage is cancelled or reduced, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the Town evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.2.10.8 Failure to Maintain Coverage. Consultant agrees to suspend and cease all operations hereunder during such period of time as the required insurance coverage is not in effect and evidence of insurance has not been furnished to the Town. The Town shall have the right to withhold any payment due Consultant until Consultant has fully complied with the insurance provisions of this Agreement. In the event that the Consultant's operations are suspended for failure to maintain required insurance coverage, the Consultant shall not be entitled to an extension of time for completion of the Services because of production lost during suspension. Contractor shall provide immediate written notice if: (i) any of the required insurance policies is terminated; (ii) the limits of any of the required policies are reduced; or (iii) the deductible or self-insured retention is increased.

3.2.10.9 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to do business in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.2.10.10 Pass Through Clause. Consultant agrees to ensure that its subconsultants, subcontractors, and any other party involved with the project who is brought onto or involved in the project by Consultant, provide the same minimum insurance coverage and endorsements required of Consultant. Consultant agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Consultant agrees that upon request, all agreements with consultants, subcontractors, and others engaged in the project will be submitted to the Town for review.

3.2.10.11 Requirements Not Limiting. Requirements of specific coverage features or limits contained in this Agreement are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only as it pertains to a given issue and is not intended by any party or insured to be all inclusive, or to the exclusion of other coverage, or a waiver of any type. If Consultant maintains higher limits than the minimums shown above, Town requires and shall be entitled to coverage for the higher limits maintained by Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to Town.

3.2.10.12 Prohibition of Undisclosed Coverage Limitations. None of the coverages required herein will be in compliance with these requirements if they include any limiting endorsement of any kind that has not been first submitted to the Town and approved of in writing.

3.2.10.13 Separation of Insureds. A severability of interests provision must apply for all additional insureds ensuring that Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the insurer's limits of liability. The policy(ies) shall not contain any cross-liability exclusions.

3.2.10.14 Timely Notice of Claims. Consultant shall give the Town prompt and timely notice of claims made or suits instituted that arise out of or result from

Consultant's performance under this Agreement, and that involve or may involve coverage under any of the required liability policies.

3.2.11 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions, where applicable, shall include, but shall not be limited to: (A) adequate life protection and life saving equipment and procedures; (B) instructions in accident prevention for all employees and subconsultants, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.2.12 Water Quality Management and Compliance.

3.2.12.2 Compliance with Water Quality Laws, Ordinances and Regulations. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the Town's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant shall additionally comply with the lawful requirements of the Town, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges.

3.2.12.3 Standard of Care. Consultant warrants that all employees and subcontractors shall have sufficient skill and experience to perform the work assigned to them without impacting water quality in violation of the laws, regulations and policies described in Section 3.2.12.2 of this Agreement. Consultant further warrants that it, its employees and subcontractors have or will receive adequate training, as determined by the Town, regarding these requirements as they may relate to the Services.

3.2.12.4 Liability for Non-compliance.

(A) Indemnity: Failure to comply with laws, regulations, and ordinances listed in Section 3.2.12.2 of this Agreement is a violation of federal and state law. Notwithstanding any other indemnity contained in this Agreement, Consultant agrees to indemnify and hold harmless the Town, its officials, officers, agents, employees and authorized volunteers from and against any and all

claims, demands, losses or liabilities of any kind or nature which the Town, its officials, officers, agents, employees and authorized volunteers may sustain or incur for noncompliance with the laws, regulations, and ordinances listed above, arising out of or in connection with the Services, except for liability resulting from the sole established negligence, willful misconduct or active negligence of the Town, its officials, officers, agents, employees or authorized volunteers.

(B) **Defense:** Town reserves the right to defend any enforcement action or civil action brought against the Town for Consultant's failure to comply with any applicable water quality law, regulation, or policy. Consultant hereby agrees to be bound by, and to reimburse the Town for the costs associated with, any settlement reached between the Town and the relevant enforcement entity.

(C) **Damages:** Town may seek damages from Consultant for delay in completing the Services caused by Consultant's failure to comply with the laws, regulations and policies described in Section 3.2.12.2 of this Agreement, or any other relevant water quality law, regulation, or policy.

Scope of Work

The Parcel (project) involves implementation of the *Preferred Conceptual Land Use Plan* (Plan), dated November 2019, to construct a variety of affordable housing types with associated streets, community space/amenities, new bus stops, open spaces/parks, parking, and necessary utility infrastructure. The development would include approximately 400 to 580 residential units. Depending on the building type, units would be available for rental or ownership, and would be reserved for households with incomes at or below 120 percent Area Median Income (AMI).

Senate Bill 226 (SB 226) signed into law in 2011, made changes to the CEQA review process for infill projects. Specifically, SB 226 called for establishing streamlined CEQA provisions for infill projects. These provisions are implemented through CEQA Guidelines Section 15183.3, which states that to be eligible for streamlining procedures, an infill project must:

- 1) Be located in an urban area on a site that either has been previously developed or that adjoins existing qualified urban uses on at least 75% of the site's perimeter;
- 2) Satisfy performance standards in Appendix M of the CEQA Guidelines; and
- 3) Be consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy.

For eligible infill projects, CEQA Guidelines Section 15183.3 state that:

“CEQA does not apply to the effects of an eligible infill project under two circumstances. First, if an effect was addressed as a significant effect in a prior EIR for a planning level decision, then, with some exceptions, that effect need not be analyzed again for an individual infill project even when that effect was not reduced to a less than significant level in the prior EIR. Second, an effect need not be analyzed, even if it was not analyzed in a prior EIR or is more significant than previously analyzed, if the lead agency makes a finding that uniformly applicable development policies or standards, adopted by the lead agency or a city or county, apply to the infill project and would substantially mitigate that effect. Depending on the effects addressed in the prior EIR and the availability of uniformly applicable development policies or standards that apply to the eligible infill project, streamlining under this section will range from a complete exemption to an obligation to prepare a narrowed, project-specific environmental document.”

Section 15183.3 is consistent with the directive in SB 226 that CEQA analysis of infill projects “shall be limited” to effects that were not analyzed in a prior EIR or are more significant than previously analyzed.

Task 1.0 Infill Environmental Checklist

Michael Baker will prepare an Infill Environmental Checklist to evaluate potential environmental effects resulting from implementation of the project. The Infill Environmental Checklist will evaluate the potential direct, indirect, and cumulative environmental effects associated with the project and demonstrate that such effects have been previously and adequately analyzed in the *Town of Mammoth Lakes General Plan Land Use Element/Zoning Code Amendments and Mobility Element Update Draft Environmental Impact Report* (2016 Update EIR) and/or impacts would be less than significant. Should this analysis determine a

different level of documentation is required, this can be provided by Michael Baker under a separate scope and fee. The Checklist document will be comprised of the following sections:

- Introduction/Overview
- Purpose of the Checklist
- Project Description
- Environmental Analysis
- Environmental Evaluation Personnel

The following technical studies will be included as part of the Checklist. It is acknowledged that these technical studies will initially consider up to 580 units at the project site; should 580 units trigger new impacts under CEQA, Optional Task 3.0 has been included to revise these analyses to 472 units at the project site).

- Air Quality;
- Greenhouse Gas Emissions and Energy Analyses;
- Noise Impact Analysis; and
- Transportation Analysis (Michael Baker has retained LSC Transportation Consultants, Inc. to perform this task):
 - Trip Generation/VMT screening analysis;
 - Design hazards; and
 - Bicycle/pedestrian policy consistency analysis.

This scope of work assumes that no Traffic Impact Assessment (TIA) is needed for CEQA clearance and is excluded from this scope of work. Should the Town identify any necessary infrastructure improvements as part of the proposed Master Plan, this information will be incorporated into the project description for the project.

Task 1.1 Administrative Draft Checklist

A. Introduction/Overview

This section will provide an overview of the SB 226 CEQA review process for infill projects. The overarching program environmental documentation will also be summarized.

B. Purpose of the Checklist

This section will discuss CEQA compliance and background and history. This section will summarize impacts and mitigation measures that were previously identified, as well as the criteria that must be met in order to qualify as an infill project under SB 226.

C. Project Description

This section will detail the project location and project description.

D. Environmental Analysis

This section will provide an analysis of the potential environmental consequences anticipated to occur as a result of implementation the proposed changes to the project. Each environmental topical review area will include analysis and a discussion of previously identified mitigation measures that are applicable to the amended project. This section will provide findings to indicate the project is in compliance with CEQA Guidelines Section 15183.3 in order to be eligible for streamlining procedures.

E. Environmental Evaluation Personnel

This section will identify the persons involved in preparing the environmental evaluation.

F. Graphic Exhibits

The Infill Environmental Checklist will include a maximum of six (6) exhibits to enhance the written text.

Task 1.2 Second Administrative Draft Checklist

Michael Baker will respond to one complete set of Town comments on the Administrative Draft Checklist. If desired by the Town, Michael Baker will provide the Second Administrative Draft Checklist with all changes highlighted to assist in the review of the document.

Task 1.3 Final Checklist

Michael Baker will respond to a review of the Second Administrative Draft Checklist by Town Staff and will prepare the Final Checklist.

Deliverables:

- One electronic copy (Microsoft Word and Adobe pdf) of the Administrative Draft Checklist;
- One electronic copy (Microsoft Word and Adobe pdf) of the Second Administrative Draft Checklist; and
- Five copies of Final Checklist and one electronic copy.

Task 2.0 Project Coordination and Meetings/Conference Calls

Task 2.1 Project Coordination

Ms. Kristen Bogue will be responsible for management and supervision of the project team, as well as consultation with Town Staff. Ms. Bogue will undertake day-to-day consultation and coordination of the project and review the document for compliance with CEQA requirements and guidelines and Town's CEQA procedures. Mr. Eddie Torres, serving as Project Director, will provide overall Quality Assurance/Quality Control.

Task 2.2 Project Meetings/Conference Calls

Michael Baker anticipates meetings with Town Staff will be in the form of conference calls. This task assumes one kick-off meeting with Town Staff. Should the Town determine that face-to-face meetings are necessary, services will be provided under a separate scope of work on a time and materials basis.

Deliverables:

- Ongoing Project Coordination
- Conference Calls

Optional Task 3.0 Update Unit Count Assumptions

Upon completion of technical studies identified in Task 1.0, if new impacts are identified under CEQA as a result of consideration of 580 units, the project description will be updated to reflect development of up to 472 units and the following analyses will be updated accordingly:

- Air Quality (qualitative analysis);
- Greenhouse Gas Emissions and Energy Analyses (qualitative analysis);
- Noise Impact Analysis (qualitative analysis); and
- Transportation Analysis (quantitative analysis).
